

ProEnergyTM SERVICES[®]

ProEnergy's Professional Services group recruits and staffs professionals both internally and for our industry clients through all phases of a project, including development, engineering, construction, commissioning, and ongoing operations and maintenance. Whatever the scope of your project, be it long-term or short-term, requiring one person or a team, we educate ourselves on your project and choose the perfect people to fill available positions through our targeted selection process. Our vast network of trained personnel has worked for some of the industry's finest companies around the world. Every one of our consultants is fully screened and tested before mobilizing to any project. Our talent, experience and resources are unparalleled in the power generation industry.
