

OPERATIONS & MAINTENANCE

ProEnergy Services' O&M philosophy focuses on safely maximizing plant equipment reliability, availability and performance. This is accomplished while maintaining a balanced, cost effective approach of O&M expenses over an asset's life in which to protect its long-term value. We are flexible enough to tailor fit a specific O&M program with proven policies, procedures and processes that will ensure your project's success. ProEnergy's O&M Services always maintains the highest safety standards while exceeding environmental requirements.

Our team manages their jobs from a customer-satisfaction approach, and brings to the project the training and experience necessary to achieve the highest results. We recognize that providing consistent, effective and comprehensive support to a plant staff is paramount.
