PROENERGY WELCOMES NEW VP AERO TURBINE SERVICES

SEDALIA, Mo. (May 16, 2017) – ProEnergy is pleased to announce that Bill Weisbrod has joined ProEnergy as Vice President of Aero Turbine Services. In his new role, Bill is responsible for the safe, reliable and economic operation of the Aero Depot and associated services.

Prior to joining ProEnergy, Bill was the Technology Director for Precision PCC Wyman-Gordon turbine forgings and has held senior leadership roles with John Wood Group and Rolls Royce. He earned his MBA from the University of Indianapolis and his Bachelor's in Mechanical Engineering from Trine University.

“Our Level 4 Aero Depot has seen extensive growth over the last couple of years, offering LM2500 and LM6000 engine overhauls, as well as outage maintenance in the field,” said ProEnergy CEO, Jeff Canon. “Bill is the right person to lead our efforts of taking the Aero Depot to a new level of expected growth. He is a highly respected leader with a proven track record of growing the businesses he has been responsible for.”

“ProEnergy is responsible for the construction, management, operations, maintenance, and repair services for energy generation facilities and equipment around the world. ProEnergy has U.S. offices in Sedalia, Missouri; Houston, Texas; and Fort Collins, Colorado; and international locations in a number of countries including Canada, Argentina, Brazil, Mexico, Pakistan and Angola. More information is available on ProEnergy's website at www.proenergyservices.com.
