PROENERGY WELCOMES NEW DIRECTOR OF CONTROLS SOLUTIONS

SEDALIA, Mo. (September 9, 2015) – ProEnergy is pleased to announce the addition of Ron Weiss as Director of Controls Solutions. Ron’s primary responsibilities include overseeing day-to-day operations and providing strategic guidance on the best engineered solutions to meet clients’ needs.

Ron’s 30 year career has included senior level management and leadership roles with several of the largest instrumentation and control companies in the world. Ron has extensive international experience with long-term appointments in Asia as Managing Director for Asia-Pacific operations for RiS and Triconex as well as assignments in Europe. He also served as the Sales Manager for Controls Systems for Wood Group. Ron received a Bachelor’s degree in Biology from The University of Western Connecticut, a Bachelor’s in Chemical Engineering from Texas A&M University and an MBA in International Business and Finance from Oklahoma City University.

“Ron has Controls Engineering and technical knowledge, but also extensive sales and marketing experience,” said ProEnergy CEO, Jeff Canon. “That unique combination makes him a great leader for our growing Controls team.”

ProEnergy is responsible for the construction, management, operations, maintenance, and repair services for energy generation facilities and equipment around the world. ProEnergy has U.S. offices in Sedalia, Missouri; Houston, Texas; and Fort Collins, Colorado; and international locations in a number of countries including Canada, Argentina, Venezuela, Brazil, Panama, Pakistan and Angola. More information is available on ProEnergy’s website at www.proenergyservices.com.
