PROENERGY WELCOMES NEW DIRECTOR OF CONTROLS SOLUTIONS

SEDALIA, Mo. (June 9, 2017) – ProEnergy is pleased to announce that Paul Goldman has joined ProEnergy as Director of Controls Solutions. In his new role, Paul is responsible for the development and performance of all activities within the Controls division and oversees operations to ensure production efficiency, quality and services.

Prior to joining ProEnergy, Paul owned and managed Goldman Management Consulting and held numerous roles at Waukesha Bearings Corp including VP of International Business Development, General Manager of WB, Russia and Director of Engineering. He also held several roles with GE Power Systems, Bently Nevada Corporation including Program Manager for Smart Services/Reliability Engineering, and Director of Research & Development and Sr. Research Scientist for Bently Nevada. Paul earned his M.S. and PhD in Mechanical Engineering from State Polytechnic University of St. Petersburg, Russia and his MBA from the University of Tennessee.

“Paul’s Controls expertise will support the increasing demand for gas turbine packages on our EPC projects,” said ProEnergy COO, Travis Simpson. “He will also lead additional developments on upgrades for our Clients’ existing control systems.”

ProEnergy is responsible for the construction, management, operations, maintenance, and repair services for energy generation facilities and equipment around the world. ProEnergy has U.S. offices in Sedalia, Missouri; Houston, Texas; and Fort Collins, Colorado; and international locations in a number of countries including Canada, Argentina, Brazil, Mexico, Pakistan and Angola. More information is available on ProEnergy’s website at www.proenergyservices.com.
