National Property Holdings Leases 26,000 SF to ProEnergy Services

(Houston, TX) – Houston-based industrial developer, National Property Holdings (NPH), is pleased to announce that ProEnergy Services has leased 26,000 SF of office/warehouse space at 80 White Road, near FM 521 and the Beltway 8 South. Energy-Parts Solutions, a division of ProEnergy Services, will operate its high voltage equipment sales, service and assembly facility from this new location.

Michael J. Plank, Chairman and CEO of National Property Holdings stated, “We’re pleased to have partnered with a great tenant in ProEnergy Services for this location, which will be included in NPH’s portfolio of South Beltway properties.” National Property Holdings is a Houston-based developer focused on commercial and industrial properties with a specialty in distribution warehouses, in addition to crane and rail-served buildings. Several large-scale projects are currently under development by NPH, including AmeriPort Industrial Park in Baytown, Beltway Business Park on Beltway 8 (South), and Port Crossing Commerce Center in La Porte.

Missouri-based ProEnergy Services is a third-party service provider who offers an array of customized manufacturing, process, and personnel services to refinery, oil and gas, and other power generation customers in the global energy industry.

Clay Pritchett of NAI Houston represented National Property Holdings while Patty McCracken of RE/MAX Pearland represented ProEnergy Services.
