

PC fuel nozzle

LIFECYCLE CARE

SUSTAIN OPERATIONAL READINESS WITH QUALITY SPARES

Part quality and availability can be the difference between productive uptime and costly downtime. PROENERGY leverages decades of aeroderivative expertise and unrivaled supply-chain power to create a responsive, cost-efficient parts ecosystem for PE6000, LM6000, and LM2500 engines.

With experience as plant operators and owners, we understand that when you face an issue, the last thing you need is a long lead time. We support your routine scheduled and unscheduled maintenance from our permanently stocked warehouses in Sedalia and Houston. From fuel-nozzle gaskets and valves to complete hot sections and engine leases, you can trust us to deliver critical spares, consumables, and custom-engineered solutions on time and on budget.

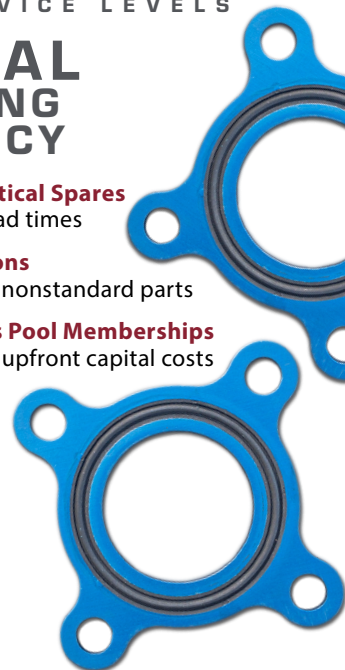

THREE SERVICE LEVELS

OPTIMAL OPERATING EFFICIENCY

Consumables & Critical Spares
Reduce costs and lead times

Engineered Solutions
Maintain uptime for nonstandard parts

Fuel Nozzle & Parts Pool Memberships
Reduce or eliminate upfront capital costs

ALL PARTS

PREPARE FOR ANY CONTINGENCY

Trust PROENERGY to balance operational efficiency and economics. Our permanent stock of parts leverages a powerful chain—driven by our aeroderivative depot, component-repair facility, and complete package fabrication center—to deliver the parts you need when you need them. Our skilled local teams exclusively focus on fast-start power and—expertly fit your spares 365 days per year.

CRITICAL SPARES

Get your traditionally long-lead items, maintenance parts, and safety stock fast.

- Consumables
- Sensors and probes
- Valves, pumps, starters, and other critical items

ENGINEERED SOLUTIONS

Minimize outages with custom solutions for failed nonstandard or obsolete parts.

- Alternative parts and upgrades
- Control system retrofits
- Custom-engineered parts

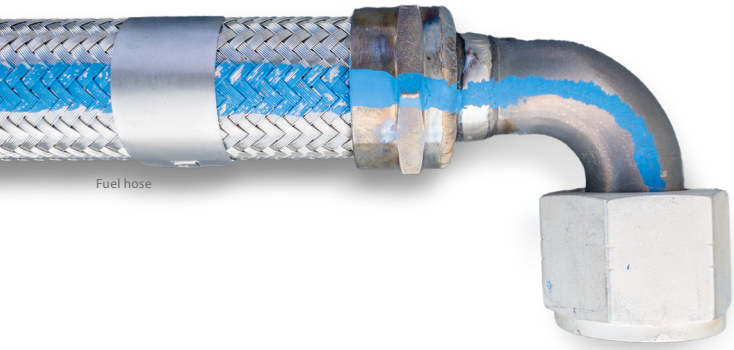

PARTS MEMBERSHIPS

Eliminate upfront capital requirements and reduce onsite inventory.

- Fuel nozzle membership
- Parts pool membership
- Engine and hot-section exchanges
